isbn:9781584690146

Carol Reed-Jones follows the life cycle of salmon in cumulative verse, similar to her best-selling *The Tree in the Ancient Forest*. Against staggering odds the eggs hatch and grow, travel to the ocean, and eventually struggle upstream to their birthplace again, to spawn a new generation. Artist Michael Maydak vividly portrays the dramatic life of these special fish. *Salmon Stream* is also packed with information and resources for people of all ages who want to learn more about salmon and how to help them survive.
