The book tells the tale of a young male dolphin who is woken from his dreams by the cries of a female in distress. He discovers that she is caught in coral and is being menaced by a white shark. With the help of the other dolphins, a blue whale, and a school of hungry parrot-fish, the female is rescued. Leaving the furious shark, the dolphins celebrate her escape. Throughout the story and following it are fascinating facts about the lives of dolphins and their marine cousins. Also included is a game page that will delight young naturalists. This wonderful nature book with its inviting illustrations is both fun and educational, and children will want to own all the books in the series.
