isbn:9780715325520

This work is an exciting collection of over 60 colourful patchwork and quilting projects, beautifully illustrated and packed with ideas to inspire quilters. Using simple machine-sewing techniques, the projects offer a huge variety in their scope, from basic bags and table runners, to more ambitious wall hangings and art quilts. Exquisite embellishments and trims include contemporary handles, unusual closures and perfectly placed beads, buttons and sequins. Traditional pieced patchwork is combined with appealing applique and a bright colour palette to give this collection of projects instant appeal.
