isbn:9781565232280

Woodworkers learn to express their faith in wood with the 76 inspirational scroll saw patterns included in this book. These patterns focus on combining scripture verses with artistic imagery. An overview of wood, tips for scroll saw blade selection, tips for

cutting patterns, finishing, matting, and framing techniques provide woodworkers with everything they need to know to get started. Four additional mini-projects feature full-size patterns and detailed instructions for cutting success. These projects include a wooden Bible case, bookmark, letter holder, and greeting card. Each project contains a scripture verse with a complimentary image such as a grapevine, cross, or other Christian symbol.
