For centuries, the Welsh have created wooden spoons carved with romantic symbols to give to their loved ones, and the history and techniques of this romantic tradition

are revealed in this easy-to-use handbook. With more than 30 patterns featured, including wedding, birthday, and Celtic Cross designs, and an illustrated guide to traditional symbols, beginners and experts will learn how to create and carve their own love spoons. A practical checklist of necessary materials, step-by-step instructions, and colour photographs guide carvers through to the finished product. This replaces ISBN: 1561082398.
