Kaffe Fassett is back. Gloriously photographed against the sun-kissed backdrop of Portugal, this sumptuous gallery boasts dazzling quilt creations from not only the world-famous Fassett himself, but also such elite designers as Liza Prior Lucy, Mary

Mashuta, and Amy Butler, a contributing editor for Country Living. Crafted from both time-honored classics and exciting new fabrics from the Rowan collection, each of the 20 quilts are accompanied by a sparkling photograph of the finished piece, complete step-by-step instructions, full-color diagrams and templates, plus a flat shot of the quilt. So pack your passport, needles, and thread and join Kaffe Fassett on this first-class excursion to the pleasures of quilting.
