This comprehensive introduction for crafters and jewellery-makers details the essentials of working with metal clay to create beautiful objects. It includes a great DVD featuring author Sherri Haab, making it easy to understand her metal-clay techniques. It includes three new projects that are shown from start to finish, all offering an

up-close view of the creative process. Since it was first published in 2004, "The Art of Metal Clay" has introduced thousands of readers to metal clay - the amazing craft product that starts out as mouldable, malleable clay and turns into real metal. Now it's even easier to perform than modern alchemy, because something new has been added to "The Art of Metal Clay": a great new DVD featuring author Sherri Haab. Haab's personal appearances are popular with crafters eager for new information and ideas, and seeing her on television makes it easy to understand her metal-clay techniques. Three all-new projects are shown from start to finish, all offering an up-close view of the creative process. Everyone who loves jewellery making, metal clay and polymer clay, beading, or any kind of crafting will want this new value-added version of the metal clay classic.
