isbn: 9781570540752

The common household pipe cleaner gets a mega-dose of creativity. Turns out pipe cleaners are like clay -- you can make anything with them: animals, food, jewelry, people...you name it. Sixteen projects are described here, with step-by-step photography in the trademark Klutz style. Attached to the book, on an extended back cover, are 75 pipe cleaners, enough to do every project in the book.
