著者:Richard A. Tennant

出版者:Gallaudet University Press

出版时间:1998-06-01

装帧:Hardcover

isbn:9781563680434

This unique dictionary can help users locate a sign whose meaning they have forgotten, or help them find the meaning of a new sign they have just seen for the first time. The American Sign Language Handshape Dictionary organizes more than 1,600 American Sign Language signs by 40 basic handshapes and includes detailed descriptions on how to form each sign to represent the varying terms that they might mean. A complete alphabetical English word index provides the option of looking up an English term to locate equivalent signs.
