著者:Noam Chomsky

出版者:Natl Book Network

出版时间:2000-9

装帧:Hardcover

isbn:9780742501294

Noam Chomsky's prolific writings have made him one of the most-quoted educators in history--the only living writer on a most-cited list that includes Plato, Shakespeare, and Freud. Yet until now, no book has systematically offered Chomsky's influential writings on education. In Chomsky on MisEducation, Noam Chomsky encourages a larger understanding of our educational needs, starting with the changing role of schools today, and broadening our view of new models of public education. Chomsky weaves global technological change and the primacy of responsible media with the democratic role of schools and higher education. A truly democratic society, he argues, cannot thrive in a rapidly changing world unless our approach to education_formal and otherwise_is dramatically reformed. Chomsky's critique of how our current educational system 'miseducates' students_and his prescriptions for change_are essential reading for teachers, parents, school administrators, activists, and anyone concerned about the future.
