作者介绍:

目录: Table of Contents

- 1. Reduced Factorizations.....5
 - 1.1 Notation.....5
 - 1.2 The Matrix Approach.....12
- 2. Balanced Labelled Circle Diagrams.....25
 - 2.1 From Matrices to Tabloids.....25
 - 2.2 Descents and Kevin Kadel’ s ZIGZAGs33
 - 2.3 Special Circle Diagrams.....37
 - 2.4 The Lascoux-Schutzenberger Tree of a General Permutation48
- 3. Symmetric Functions and Schubert Polynomials.....65
 - 3.1 Stanley’ sTheory of P-Partitions.....65
 - 3.2 The Stanley Symmetric function of a Permutation72
 - 3.3 Divided Differences and Schubert Polynomials85
- Appendix by David Little
- 4. A Combinatorial refinementof the Lascoux-Schutzenberger Tree.....103
 - 4.1 The bijection.103
 - 4.2 The Applet.....107
 - 4.3 The Schensted and Edelman-Greene correspondences as particular cases.....109
- References.....113
