A man. A woman. A kiss in the dark. That is how it begins. But before his nightmare ends, Prescott Marshall will learn that kisses and darkness can both hide evil intent – and that the worst darkness of all may be lurking inside him.

Lost for more than half a century and never before published under Cornell Woolrich’s real name, FRIGHT is a breathtaking noir crime novel worthy of the writer who has been called “the Hitchcock of the written word” and “one of the giants of mystery fiction.”
