Best friends in high school, Sandy Randolph and Michael Carlson pick up their friendship when they meet again nine years later. Friendship soon blossoms into love. Sandy tries to fight her feelings. She knows a relationship with Mike is impossible. One of Mike's dreams is for a large family, and that is the one thing she cannot give him. A short, disastrous marriage produced one good thing for Mike-his son. His ex-wife kidnapped Corey over a year ago. Despite help from the police and private investigators, no one has been able to find Corey. Mike decides to take over the search for his son, and wants Sandy by his side to help him. As their feelings for each other deepen, Sandy knows she has to admit the truth about her sterility. But if she does, she may lose the love of her life.
