"JPod," Douglas Coupland's most acclaimed novel to date, is a lethal joyride into today's new breed of tech worker. Ethan Jarlewski and five co-workers whose surnames begin with "J" are bureaucratically marooned in jPod, a no-escape architectural limbo on the fringes of a massive Vancouver game design company. The jPodders wage daily battle against the demands of a boneheaded marketing staff, who daily torture employees with idiotic changes to already idiotic games. Meanwhile, Ethan's personal life is shaped (or twisted) by phenomena as disparate as Hollywood, marijuana grow-ops, people-smuggling, ballroom dancing, and the rise of China. "JPod"'s universe is amoral, shameless, and dizzyingly fast-paced like our own.

## 评论

"avant-garde novel of six young adults, whose last names all begin with the letter 'J' and who are assigned to the same cubicle pod by someone in human resources through a computer glitch"
