Teenage ninja girl Yumei has gotten used to surviving havoc in Hawaii. On a daily basis she is assaulted by a blind ninja samurai, an overly talkative bully and an obnoxious,

buxom wrestler, and she has boyfriend who might just be the son of a Norse god. But her usual problems only multiply when a tiki statue sends her on a quest to retrieve a sword that just happens to leave its wielder possessed by a water demon Throw in some arranged marriages, an evil vice-principal who seduces all the female students, a grim reaper traveling around with a yo-yo-slinging ninja girlfriend and a secret government conspiracy full of evil scientists (naturally), and Yumei is clearly going to have her hands full
