Gregory is the godmother of feminine alternative comix and every issue of her "Naughty Bits" comic(from which "School Daze" is drawn) is a pure laugh-your-ass off delight; an offer you surely MUST not refuse!!! From her first work "Damsels In Distress" with her sisterhood/superdyke phase in full swing, Gregory has grown and broadened her perspective to the point where "School Daze" can be recommended enthusiastically to open-minded people of all persuasions over the age of 16. A marvelous addition to an already incredibly impressive body of work. Roberta rules!!!
