From the oral histories of the slave ships to the Nobel Prize winners of the 20th century, black fiction has always been an integral part of American culture. Forceful, dignified and eloquent, black writers such as Malcolm X, James Baldwin and W E Dubois have been responsible for some of the most searing and far-reaching comment on American history and society. Featuring fiction, poetry, autobiography, and literary criticism, BLACK VOICES captures the diverse and powerful words of a literary explosion, the ramifications of which can still be seen and heard in the works of today's black writers.
