Set before the advent of the Bronze Age, "The Gift of Stones" centers around a community of stoneworkers who live in a village near the sea. Wealthy and complacent, they survive by the trade of their unrivaled skills, secure in the supremacy of their craftsmanship. A small boy, outcast by misfortune, ventures from the confines of the enclave to explore the unknown. He returns with enchanting tales of ships and the seashore, of new vistas and horizons, that beguile and disturb the villagers. In spite of his words and intuitive wisdom, the stoneworkers remain oblivious to the winds of change beginning to blow in the outside world. Until, that is, the storyteller brings back to the village a strange and angry woman whose presence foretells the coming of metal, the end of stone, and the demise of their way of life.
