Something strange is happening in the seaside town of Bareneed. Mythical creatures are being pulled from the sea, perfectly preserved corpses of long-lost villagers are washing up on the shore, and residents of the town are suddenly overcome by a mysterious illness that is making them forget how to breathe. A page-turning gothic thriller reminiscent of H. P. Lovecraft, "The Town That Forgot How to Breathe" is "a novel of dazzling ambition and strange, haunting loveliness. . . . An absolute triumph of the storyteller's art" (Joseph O'Connor, author of "Star of the Sea").
