Geoffrey de Lanceau is a knight, the son of the man who once ruled Wode. His noble sire died, however, branded as a traitor. But never will Geoffrey believe his father betrayed their king, and swears vengeance against the man who brought his sire down in a siege to take over Wode. Lady Elizabeth Brackendale dreamed of marrying for love, but is promised by her father to a lecherous old baron. Then she is abducted and held for ransom by a scarred, tormented rogue who turns out to be the very knight who has sworn vengeance against her father. The threads of deception sewn eighteen years ago bind the past and present. Only by Geoffrey and Elizabeth championing their forbidden love can the truth - and the lies -- be revealed about a knight's vengeance.
