Lisa St Aubin de Terán's *Swallowing Stones* is a fictionalized account of the extraordinary life of one Oswaldo Barreto Miliani, code-named Otto -- adviser to Castro, confidant of Salvador Allende, and sharp thorn in the sides of both the CIA and the KGB. In the riveting and remarkable invented memoirs of the legendary seventy-year-old revolutionary scholar, the explosive history of twentieth-century Latin America unfolds before us -- viewed through the sharp, unflinching eyes of a uniquely indomitable character as he progresses, through consequence and fateful accident, from philosophy student to guerrilla fighter, political activist, and outlaw.
