"Math with Business Applications" is a comprehensive text that covers all the skills students need to manage their personal finances and excel at their first jobs and in everyday life. "Math with Business Applications" is a three-part program that takes

students from basic math concepts to sophisticated financial strategies. Basic Math Skills reviews the fundamental math operations, Personal Finance teaches money management skills, and Business Math provides a thorough primer on launching and running a business. "Math with Business Applications" contains lessons, workshops, features and activities that comprise a well-rounded program.
