Large brilliant paintings make this witty alphabet book unlike any before!

What is A? Two ants tiptoeing across an alligator's snout. What is B? A bold brown bear and a flirtatious butterfly. What is C? Cool cats in a pink convertible. What is FLORA MCDONNELL'S ABC? An exuberant introduction to the alphabet that explodes with the

color, wit, and energy of an exciting new artist. With each letter illustrated twice--once capitalized and once lowercased--this ABC book welcomes young children to the world of words and letters, clearly and brilliantly.
