isbn:9780945354567

This warm, sensitive, and straightforward story will help young children understand and accept the changes in their lives when a parent is diagnosed with a life-threatening illness. Parents will welcome this valuable aid in explaining the illness to their children. Sharing the book together, families will find encouragement in dealing with their sorrow, hopes, and small joys during a difficult time. Suggested activities for parents and children to do before, during, and after treatment are provided in the book's

introduction.
