This title is suitable for children of ages 9 to 12 years. Join the parade of history in search of the people, places, culture and virtues that are the legacy of this powerful and long-lived empire. See how wisdom and ignorance co-existed in the Roman peoples; search a globe to find Rome's legacy alive and well today; discover how much Latin you are speaking today (without a single Latin class). Ask yourself what we can do better to 'make it right' for all people. This title is also suitable for children of ages 7 to 12 years.
