IT STANDS TO REASON THAT IF OUR FOODS ARE NOW LIGHTER AND MORE DYNAMIC, OUR WINES SHOULD BE ALSO. A longtime champion of the victimized wine consumer, Willie Gluckstern debunks the myths and misinformation surrounding the (allegedly) complex subject of wine. His straightforward advice includes: LIThe wines that go BEST with food -- and why. LIA cure for label worship: "There are just as many lousy \$60 bottles as \$3.99 bottles." LIHow to avoid getting ripped off in stores and restaurants. LIHow to choose a great wineshop: "Do they know where Italy is?" LIDreary housekeeping tips, such as storage, decanting, saving opened wine, and "that sulfite thing." /ULPlus, the straight poop on oak, "the MSG of wine," a few well-chosen words for greedy restaurants and retailers ("Those bastards "), and an "unprecedented" expose of mass-market Champagne, including how to find the good stuff by cracking the secret label code. Irreverent, informative, and controversial, "The Wine Avenger" is indispensable for beginners as well as enthusiasts.
