isbn:9781562396039

These exciting books teach readers about animals that live on a farm. Children learn about the pecking order in a chicken coop, the many stomachs of cows and goats, how a pig roots with its snout, and much more. Also discussed is preserving farm animals that face extinction, like the Fainting goat and the Dominique chicken.-- Table of contents, glossary, index, and internet sites-- Full-color photos, diagrams, and maps-- Supports science and social studies curriculum
