Drawing from the information presented at conference sponsored by the Harvard Graduate School of Education and the Mid-Atlantic Regional Technology in Education Consortium, leading educators, researchers, and policymakers, Scaling Up Success translate, theory into practice and provide, a hands-on resource that clearly describes different models for “scaling up” success. This important resource is filled with illustrative examples of best practices that are grounded in real-life case studies of technology-based educational innovation^{3/4} from networking a failing school district in New Jersey to using computer visualization to teach scientific inquiry in Chicago. Scaling Up Success show how the lessons learned from technology-based educational innovation can be applied to other school improvement efforts.
