出版者:Sage Pubns

出版时间:2005-1

装帧:Pap

isbn:9780761931669

Faculty Groups That Work will take the research and theory of work groups from the social sciences and illustrate the concepts with examples, illustrations, and best practices drawn from schools. Susan Wheelan is an expert in teams and work groups and has worked extensively in education at all levels. She includes multiple surveys, assessments, and instruments for team members and team leaders to measure their skills and target areas for improvement. Teambuilding activities are also included to help move teams through the different development stages, making this book perfect for staff development.
