Following the success of its best-selling predecessors, the Fourth Edition of Harriette Pipes McAdoo's *Black Families* retains several now classic contributions while including updated versions of earlier chapters and many entirely new chapters. The goal through each revision of this core text has been to compile a book that focuses on positive dimensions of African American families. The book remains the most complete assessment of black families available in both depth and breadth of coverage. Cross-disciplinary in nature, the book boasts contributions from such fields as family studies, anthropology, education, psychology, social work, and public policy.
