Help Your Child Discover the Joy of Learning

Does your child learn best in the morning, afternoon, or evening? Does his reading comprehension increase or decrease when music is played in the background? Does

she prefer to study alone or with others? According to nationally respected educators Mariaemma Willis and Victoria Kindle Hodson, our children process information in a multitude of unique ways. What works best for one child is often counterproductive for others. By trying to force all children into the same learning mode we unfairly short-circuit their education as well as their intellectual development.

Discover Your Child's Learning Style shows you how to assess and nurture your child's individual learning potential based on his or her talents, interests, disposition, preferred environment, and more. Inside is a step-by-step program of self-awareness tests that guide you to a better understanding of your child's unique strengths and weaknesses, goals and interests, and inner peace. You'll discover how to create the right atmosphere for learning in the home. Most important, you'll help your child excel not only in school but in life as well.

"An excellent tool for discovering how a student learns best. Teaching children according to how they learn ensures optimum education for all; it's an approach that could help make remedial literacy programs obsolete!"— Patricia Flanigan, California State Library Literacy Task Force

"Essential for any parent or teacher who works with children."— Suzanne Lopez, psychotherapist and author of Get Smart with Your Heart

"A powerful tool for increasing your child's self-esteem. At last, there is a simple solution for every child to become a winner."— Nancy L. Chaconas, M.A., educator, author of HELP-Esteem

"Parents who understand the principles in this book will be better parents!"— Richard and Linda Eyre, authors of Teaching Your Children Values
