This workbook makes the process simple and organized. Fill in the pages with important contacts (from the plumber to the exterminator) and financial facts (including warranties and mortgage details). There's a tax worksheet, a place to put notes on remodeling and renovations for every single room, space for comments on the infrastructure, and a section on garden plants and features. A calendar suggests a month-by-month to-do list, with chores both inside and out to keep the house in

tip-top shape.
