出版时间:2007-3-1

装帧:Paperback

isbn:9781861084637

This book is jam-packed with unusual and fun-to-make projects and, with a highly original approach; Christiane Berridge takes the reader through the day, from morning to night-time, bringing the Victorian dolls' house to life. There is something for all levels

of ability: beginners will enjoy making the sugar cone, waxed flower dome and dressing table set, while for the more experienced miniaturist there is the challenge of the travelling trunk or fourposter bed. From the hustle and bustle of the basement kitchen, the impressive hallway, the grand dining room and comfortable parlour, to the elegant bedrooms, this is a tour through the Victorian house that offers over 70 projects for every room. All projects use basic tools and materials.
