Woodturners of all abilities will find plenty to challenge them in this guide to creating delightful and beautiful adornments. Using just a lathe and ordinary timber or laminated wood, readers can produce a whole range of jewelry from the 12 step-by-step projects that include earrings, rings, necklaces, and brooches. Readers

then learn how to decorate their carved pieces with such techniques as staining, dyeing, and inking; inlaying with beads, bands, and gemstones; and using paints and powders.
