Move over mendhi tattoos: the hottest trend in accessories is foot jewelry-a chic, beaded strap that wraps around the ankle and index toe, evoking the footwear of belly dancers. Nothing's more stylish for women of all ages, at the pool or the beach. This kit includes complete instructions in a 32-page book, plus everything needed to make a pair of stunning barefoot sandals: 2 elastic strands and a great selection of beads in different shapes and sizes.
