isbn:9781933064093

After more than 20 years of quality publishing and numerous sold-out issues, "Knitter's Magazine" presents this collection of its best men's handknits. From rugged to refined, from casual to corporate, the 25 projects are classics with style. A recent shift in the yarn world - away from novelty yarns to interesting classics, luxurious blends, and rich tweeds - ensures that these knits will be worn, look good, and be fun to make. In

addition to swatches highlighting new yarn choices, clear illustrations encourage the knitter to try color work, cables, or textured stitches for the first time. With the wide range of sizes and a special knit-to-fit section, these pullovers and cardigans, vests and waistcoats work for 20-something students, career-driven professionals, rugged sportsmen, and gentlemen of leisure.
