"Down, down, down the dark, dark street they came. Up, up, up the dark, dark house they climbed. Stealthy as shadows, quiet as mice. Only the moon was watching when they arrived. Only the moon was watching when they left. Only the moon and one little boy." Tom is awoken by a band of rough, tough little girl pirates, so what does he do? He joins their ranks. Together they set sail in search of treasure. But what will happen when they meet a crew of rough, tough grown-up pirates? Readers will be swept up in the spare, jaunty text, and quirky illustrations in this unexpected bedtime adventure.
