著者:Comics, Dc

出版者:Little, Brown and Company

出版时间:2004-10

装帧:Pap

isbn:9781401202415

The eighties were a decade of change for Batman. He was growing in popularity and his appearances throughout comics grew, along with an increasing sophistication of subject matter. While his rogues gallery remained the same, he changed partners, saw one crippled and another die. It was also a decade of growth, as an influx of new writers and artists ushered in a fresh era for the Dark Knight Detective. Features Batman, Robin, Nightwing, Batgirl, the Joker, Penguin and the Scarecrow!
