"An honest portrayal of a young girl's emotional journey amid family upheavals." Nine-year-old Emily is trying to cope with her changing world. When her father and mother grow further apart, the family's piano -- Emily's link to the good times that once flooded her home -- is sold. She decides the key to the happiness her family used to share is the piano, and so she must find it. Believing the instrument is most likely in a part of town where rich people live, Emily sets out on her search. She knocks on many doors without success, but carries on, determined to end the darkness that has descended on her home. Finally a piano teacher gives her a lead. Though the days pass slowly, she eventually receives the anticipated call. "Be there Sunday at 1 p.m. sharp," she's told. It turns out the piano is now in a convent, where it sits in the middle of a room, like royalty. Sister Isabelle tells Emily she can come by any Sunday, and she can bring her mother too. The first time Emily's mother sees the piano, she plays, sings, and cries. The darkness in their lives slowly tiptoes away as Emily and her mother rediscover happiness and the healing power music brings.
