Be careful what you wish for . . . The Fell Family has a small problem--a little devil that lives in their house. He does all sorts of bad things, and the Fells are fed up. When the prim and proper Ms. Phisto mysteriously appears and offers to remove the little devil and come take his place, the Fells are all too happy. But trading in one small problem for something else might just get you a very, very BIG problem. People often say, "You're better off with the devil you know than with the devil you don't." And maybe there's some truth in that. With wildly inventive illustrations, and zany humor, this picture book brings a familiar adage to life in unexpected ways.
