World geography, world cultures...a world students can understand

"The World and Its People" is a middle school program co-authored by National Geographic. This program introduces students to an enriched view of the

interrelationships of geography, history, economics, government, citizenship, and current events--in one compelling package. A strong geographic thread is interwoven with history, government, and current events to analyze different regions of the world and the issues they face.

Suitable for a world geography or world cultures class, "The World and Its People" is available as a full survey; Eastern Hemisphere; and Western Hemisphere, Europe, and Russia.
