It hurts to be beautiful. Pretty, blond, popular Cameron Beekman has it all -- lots of girlfriends, a hot boyfriend, and a successful family. She's perfection. Gone are her days as the outcast, huge-nosed "Beakface." Which, as it turns out, was nothing a good nose job couldn't fix. While her little sister, Allie, struggles with doubts about her own approaching "procedure," Cameron wants more. She's headed to UC "Santa Barbie" and needs to look the part. After all, why settle for smart and pretty when smart and "drop-dead gorgeous" is just a surgery away?
