[Backgrounds to English Literature 下载链接1](#)

著者:Merz, Caroline

出版者:Facts on File

出版时间:2003-3

装帧:HRD

isbn:9780816051250

This five-volume set puts English literature in context by providing the historical, cultural, and social background of each major period. Each volume provides a fascinating and colorful overview of the period: its history, leaders, important laws, social and religious movements, scientific developments, and details of daily life in different regions and classes within Great Britain. The set summarizes the literary genres of each period and discusses representative writers and works.
