Can the Beacon Street Girls bring the house down at Abigail Adams Junior High's Talent Show? Or will the Queens of Mean steal the show? Maeve, Avery, Katani, Isabel, and Charlotte face their toughest challenges yet-- saving the show, keeping the Movie House from going out of business, and dealing with an out-of-control soccer mom. On top of it all, Maeve's relationship with Dillon is shaky and Marty, the dog, has a crush on a mysterious pink poodle owned by the very interesting Ms. Razzberry Pink. Will the girls be able to show everyone that sometimes you have to take things out of bounds to put it all back together?
