Surrounded by 140 acres of expansive lawns, meadows and walking trails, in the Berkshires of western Massachusetts, the Sterling and Francine Clark Art Institute is home to exceptional collections of European and American painting and sculpture, master prints and drawings, English silver and porcelain, and early photographs. Published on the occasion of the Clark's 50th anniversary, this handsome book combines beautiful images with engaging narrative to capture the unique experience of 'art in nature' that has made the Clark one of America's country's best-loved museums.
