著者:Hopping, Lorraine Jean

出版者:Scholastic Library Pub

出版时间:2005-9

装帧:SAL

isbn:9780531167762

- Includes basic information about bone identification.- Perfect combination of biography (100+ pages) and science.- Written in an engaging, easy-to-read style.- All bio

subjects are contemporary and active in their fields.- An advisory board of prominent scientists, including Rita R. Colwell, former director of the National Science Foundation, and Alan J. Friedman, director of the New York Hall of Science, conceptualized the series and chose bio subjects.
