Mummies are a fascinating topic from a scientific and historical viewpoint, and readers of this new series will love to share what they learn with their friends. Graphic images and text explain how mummies have been preserved, found, and studied. This series will grab readers' interest and inspire them to want to learn more. This series explores

and supports standards under "Culture," "Time, Continuity, and Change," and "Individuals, Groups, and Institutions," as required by the National Council for Social Studies.
