Even Picasso had to start somewhere! Children join everyone's favorite fun-loving character, Kevin the Cat, for a delightful introduction to painting. From the easels of Todd and Wayne South, creators of the best-selling Let's Start series, Let's Start Art Painting combines the winsome illustrations little ones love, with simple, easy-to-understand instructions. Inside a sturdy little take-along kit, budding artists discover a 32-page project book, a 15-page action pad, watercolors, a brush, stencils, a sponge and lots more. Youngsters experiment with a variety of techniques (masking, blending, negative space) and create their own paint-by-numbers masterpiece!
