A concept book for the youngest of train lovers All aboard This is one train book you don't want to miss. Using a refreshingly simple approach, Paul Collicutt has crafted the perfect book for young railroad enthusiasts. Each page features a vividly colored and detailed painting of a train, and the spreads show how they are different -- long and short, fast and slow, old and new. As a bonus, full-color endpapers feature captioned renderings of real-life engine models from all over the world that were the inspirations for the trains depicted throughout the book.
