著者:Kathleen Tracy

出版者:Mitchell Lane Publishers

出版时间:2002-10

装帧:Library Binding

isbn:9781584151357

Written especially for young adult readers, this series helps place each significant invention, discovery, or development in historical perspective while exploring the life of

the person responsible for each breakthrough. Readers will travel back in time to learn about each important scientific, medical, or technological discovery. No science fiction story even approximates the mystery and suspense contained in these true science biographies. Story of the doctor who invented the artificial kidney, or dialysis machine after watching helplessly as countless patients died from renal failure.
